

Manipal Institute of Technology, Manipal
Department of Data Science and Computer Applications
Subject: DSE 2121 – Data Analytics
FISAC

Class: III SEM DSE

Max. Marks: 10

Objective:

Perform the analysis on the given dataset and write the observed insights about the relationship between the market value and the following categories:

- Position
- Country
- Age
- Club
- Players

Also, compare the two most valuable players based on various parameters. Submit the report along with the implementation.

Note: The framed questions to perform the analysis should be highlighted clearly.
